

LEGO Fork lift truck 850

With Technical Set 850 you can build from the detailed construction plans this fork lift truck with steering to the rear wheels and a fork lift for raising and stacking heavy loads, just like those in big factories and warehouses.

But the same set can also be used for making other things too – a dumper truck, bulldozer or grader, among other things.

In der Bauanleitung steht vor den Achsen eine Zahl, die die benötigte Länge der Achsen anzeigt.

Numbers in the building instructions near axles show the length of axle to be used.

Dans les conseils de construction, il y a un chiffre à côté de chaque axe. Ce chiffre indique la longueur des axes à utiliser.

Ut for akslerne i byggeanvisningen er anført et tal som viser hvilken aksellengde som skal brukes.

Note:

Redesigned during production.

There are at least 2 different versions of instructions for this set. The differences for the second version are indicated in this inventory in the Alternate Items section with Match ID 99.

Quick overview of redesign: Two 2 x 8 plates and one 1 x 4 plate are added underneath the seat platform to allow more clearance for the back tires.
